As a third generation cook and passionate advocate for the Indian cuisine, Nandita continues to build her distinctive identity by simplifying and updating traditional Indian recipes to create unique, healthy, delicious and well balanced meals. She does not believe that the Indian cuisine should be represented by numbered selections on back-lit signs or in laminated menus. Instead, her approach to cooking Indian food provides a window into the rich diversity, adaptability and accessibility of authentic Indian food. She attempts to shatter through the stereotypical selections of ethnic cookbooks with her two groundbreaking eBooks The Family Feast and Five Vegetarian, Gluten-free Feasts that provide a cohesive sampling from a larger volume, A Dozen Ways to Celebrate, whose second edition will be available in Fall of 2014. A Dozen Ways to

Celebrate, includes more than 100 recipes through 12 elaborate menus, originally presented at one of Curry Cravings secret supper club dinners.
