

The Johannine Gospel in Gnostic Exegesis (Monograph Series (Society of Biblical Literature))

Johannine exegesis of God is a stimulating study of the explicit and implicit theological language of the Johannine community. It exegetically explores crucial questions concerning the Fourth Evangelists language used to characterize God. It makes a sojourn into the relationship between Johannine Christology and Theology. It examines the dialogue dynamics of a theological conversation between those who do not share the same theological affirmations, and enumerates how the Johannine community derives benefit, becomes enriched and learns inclusiveness through its dialogue/conflict with its pluralistic environment. In approaching and interpreting the Gospel narrative, the implications of Theology in the Johannine communitys struggle for legitimacy, identity and existence become clear. The Theology of the Johannine community shows a creative dialect with its sociological context, and its experiential theologising makes its theological language authentic, clear and precise.
