

Money - Increase Your Wealth: Earn More and Create Success with Hypnotherapy

As featured in the Daily Express newspaper This digitally mastered hypnotherapy CD will help you to let go of past negative money issues and worries by changing the old negative habits and patterns into new positive beliefs about money. Ailsa Frank, qualified Hypnotherapist will talk you through a series of exercises to help you take control of your finances and increase your wealth. Never listen to this recording when driving. Ailsa has helped many clients increase their wealth using hypnotherapy techniques. By changing your beliefs about money you can attract wealth and abundance to you. These recordings are deliberately fast paced to deliver the positive messages deep in the subconscious mind. You dont need to hear all the messages consciously. Lie back and relax as you listen to this recording everyday for several weeks or months or until you have made the changes you want. It is recommended you use it at bedtime although another time of day will be fine as long as you are lying down in a safe place. If you fall asleep during the recordings the changes will still take place in your mind. You can listen to both tracks one after the other or alternate them on different days. Track 1 - 19 minutes Track 2 - 13 minutes Track 3 - 7 minutes Since listening to the recordings I feel relaxed about money Do you relate to any of the following: Want to be wealthier? Cant seem to attract the money you want? Chasing the next bill? Worried about the future such as your pension? Want to change career? Worried about your finances? Over spending? Need more money? Want to feel really good about money? Want to improve your profits and be focused? If you require an MP3 download visit Ailsa Franks website.
