Understand the mental disorders that power the psychopathic behaviour through criminal profiling. What makes criminals tick? Why do a majority of us have a deeply cultivated instinct to act kindly, while others pursue the opposite? The answer to this and other questions lies in understanding the mind. When it comes to analyzing criminals and psychos, one thing we know for sure is that the problem lies in their psychology. There has to be a reason they are criminals, and this reason most definitely lies in the nature of their thinking. This book examines the mental disorders that corrupt the minds of these outcasts and attempts to explain various things that lead to the development of psychopathic tendencies. It is also written in prose simple enough for you to understand and compare. Here Is A Preview Of What Youll Learn...
