

The Nails of Golgotha (The Archangel Chronicles Book 1)

The Archangel Chronicles Mysteries within mysteries, unknowns hidden by time and distance, of rumors, and lies, ancient lore, forgotten names and places: all as current as today. Tales of murders and kidnappings, duplicity, betrayals, and deaths that have never been explained. Are the Chronicles true or just old stories told around ancient fires and smoky caves, later to be only partially written about? The Nails of Golgotha brings to life the mysteries surrounding that fateful afternoon on the hill known as the place of skulls. Did events on the mount just stop that day; did the Romans on crucifixion duty just go back to their barracks? Did the thunderous winds and storm just quiet and blow away? The truth is that man was suddenly face to face with something unimaginable, something that would change their lives forever. The power struggle between good and evil erupted before their eyes sending ripples of things to come out across millennia.
