

The Big Fish... Acropolis Now (The Big Fish Tails Book 6)

The Big Fish returns to his travels and this time hes in Turkey and Greece with a few hors doeuvres served up for starters. So the failing Greek economy, terrorism alerts, and so many Americans for company; surely the makings of a real adventure... But its mainly about people and his take on them. Although I think he can perhaps rule out any diplomatic service in the Foreign Office if he had any aspirations in that field... Another adventure that The Big Fish would like to share with you...
