

Spectrum Mathematics Gold Year 7

Spectrum Gold 7 has been written to support lower achievers. It is a high quality text that covers all the work requirements of the NSW maths syllabus at an accessible level. Spectrum Gold 7 covers the same content areas, in the same order as Spectrum Maths 7. This allows use of both books in the mixed-ability classroom, or use of a more appropriate resource in a streamed lower ability class. Spectrum Gold will save busy teachers the time currently spent adapting existing maths texts to be suitable for lower achievers. Numerous simple questions on each topic to practice and reinforce key concepts. Carefully graded exercises and questions. Omits non-essential learning and extension material. Provides review activities at the end of each chapter. Is written at a reading age below 10. Will enable students with poor literacy to concentrate on their maths. Provides essential vocabulary at the start of each chapter. Minimises the need for reading. Uses a larger print size to aid readability. Uses a simplified vocabulary.
