

Television Production

Designed for television production courses or a multiple-course production sequence, this successful book has been a recognized leader in the market for two decades. New co-author, John Rosenbaum, who brings twenty years of teaching experience to the book, not only complements Wurtzels professional expertise, but reorganized the book and adding new material of particular interest to students. The authors have thoroughly updated the examples, references, photo program and artwork. The increased attention to field/video applications and information will make the book much more flexible and give it a broader appeal in a variety of courses.
