The Paleo Diet and similarly, the Paleo Recipes you're about to discover work by two fundamental principles: 1. Put maximum nutrition INTO your body... and... 2. Reduce or eliminate toxins and interference. The first one is obvious. Natural foods from the plant and animal world especially when organic and untouched by the horrors of modern food production and manufacturing are loaded with essential nutrition. The second principle is just as fundamental, but less apparent. It means that when we avoid toxins hidden packaged/processed food... and the many hidden toxins in commercial meat, fruits and vegetables... Our bodies begin to clean out and detoxify. This allows our cells to expend less energy in actually fighting off foreign substances and more on rebuilding, growth and rejuvenation. Imagine seeing and feeling more positive changes in your body and health than most people see in years of other diets? It happens all the time... Because you're finally getting all the vitamins, minerals, protein, fats and low GI carbohydrates that maintain the health of every organ in our body.
